

# Silent Letter Snakes and Ladders Game

## Teachers' notes

We devised this activity since words with silent letters have proved difficult for children to learn to spell. This game can be played in a variety of ways.

The activities / games are differentiated. Choose the game that is most suitable for your child depending on his/her ability. It is important that all children feel successful.

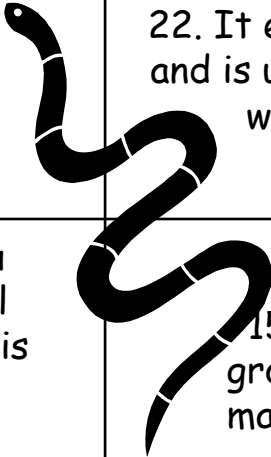

The most straightforward way is to progress up the board with dice and counters. When you land on a clue you have to guess the word and write it on your record sheet. The aim is to collect around ten words.

You can decide whether to provide the list of words. You or the children might like to produce picture clues. Children can of course make their own rules!

Many children will like the idea of making their own clues for a new version of the game.
